October 20, 2020

Comstock Educational Community,

Comstock Public Schools has a confirmed case of COVID-19 at Comstock Elementary School. This morning, I received notification that a staff member had tested positive for the virus and immediately reported the situation to the Kalamazoo County Health and Community Services Department (KCHCSD). Together, we have been able to identify the source of transmission and have confirmed that the virus did not originate at Comstock Elementary School. The actions I have taken are under the direct supervision of Jim Rutherford, the County Health Director.

Following the protocol set forth by Director Rutherford, we identified and notified all persons who may have been exposed. Fortunately, no students were exposed to the virus. The person who tested positive is currently self-isolating at home, as are those who met the guidelines for close contact.

Stay safe.

Sincerely,

A handwritten signature in blue ink that reads "Dr. Jeffrey J. Thoenes".

Dr. Jeffrey J. Thoenes  
Superintendent
